[illegible]

The diagram illustrates two distinct sets of data points. The left set, representing a 'Control' group, contains 18 points arranged in a compact, roughly rectangular cluster. The right set, representing a 'Treatment' group, contains 30 points arranged in a long, horizontal line, indicating a much wider spread or range of values compared to the control group.

Group	LD ₅₀	Sex	Concentration
1	LD ₅₀	♀	>2000 ng/kg
2	LD ₅₀	♂	>2000 ng/kg
